SUBJECT: Weekly Activity Report #25 13-19 June 1956

A. SIGNIFICANT ITEMS

- 1. The changes in schedule of courses which would be entered by oncoming JOT's continue to alter the planning of a coherent program for them. We hope to work out profitable interim activity between the end of one course and the beginning of another. It is fair to say, however, that those concerned with scheduling have recognized our needs and are attempting to cooperate with us.
- 2. The number of candidates on whom we have placed actions and who declined appointment continues to increase as the summer approaches. Since the first of January, thirty-one individuals have reported their change of plans -- one in January, three in March, eight in April, eleven in May, and eight thusfar in June. The reasons for so doing in approximately two out of three cases is to accept other employment. All of this gives emphasis to the need for early testing and prompt processing in order that we can meet the competition which we must face. It is hoped that the new arrangements for field testing will include much earlier schedules, and that the proposed plan for coordinating all Personnel functions having to do with JOTP, if approved, when they are implemented will result in far more successful "take" next year.
